

Security Policy

APS is committed to create and maintain a safe and secure working environment in order to protect its people, assets, information, product, reputation and the environment.

Security Mission Statement

APS's security policy is supported by its security mission statement. This mission statement requires that we:

- Determine and understand our most significant activity and managing the associated risks and threats;
- Provide security information, advice, consultation, training and awareness;
- Be the focus for the management and security of its intellectual property and personal data;
- Manage the physical security of the site;
- Provide the key elements of emergency response and business continuity management;
- Work in partnership with other support lines and departments;
- Support our partner sites as required

Security Management Style

APS will meet its security policy and mission statement via a management style that is open, honest and applied with integrity.

Support

Antibody Production Services is a division of Life Science Group Ltd.
